This psychological defense mechanism was prevalent during the time depicted in Johnson's novel, in the decade following Germany's official division into East and West, when separation from the Nazi past through repression, rationalization, or revisionism was still a common strategy for at least the political leaders of the two German states. And it struck me then that the sea was the world, and everything else—the city, the towering crag of limestone, the very ships that floated upon it and the fish that swam in it—was only exceptional, only oddities like the bits of leaf or straw one sees in a globe of amber.
